

Client Communication: Changes in Orderable Unit Codes

Date Issued: April 19, 2019

Effective Date: April 19, 2019

As we transition our testing to our ProMedica partner laboratory, Pathology Laboratories, Inc. (PathLabs) will be making updates and modifications to our database, as more fully described in this disclosure. All established and corresponding reference ranges for any testing performed by the ProMedica Laboratories will be noted on the patient reports. As previously communicated, we will also adopt their critical value ranges as approved by our joint Medical Director. Please review the information and make changes as applicable to your practice/facility. If you have any questions, please contact our Client Service Department at 419-255-4600 / 800-281-8804 or your Account Executive.

Note: CPT codes are provided for information only and are based on PathLabs' current understanding of Medicare rules and carrier instructions and in accordance with the current issue of Physicians Current Procedural Terminology published by the American Medical Association. Medicare coding may differ from coding used by other third party payers. Questions regarding coding should be confirmed with the payer being billed. PathLabs cannot accept responsibility for the reimbursement clients may or may not receive based on the procedure codes provided.
