Test Updates Effective May 9, 2022

Pathology Laboratories, Inc. (PathLabs) has made updates to many Allergen tests, effective Monday, May 9, 2022, as disclosed in the chart provided herein.

The test updates include changes for certain tests in the following areas:

- EMR Mapping and CPT codes
- Revised Result Fields and Test Names
- Inactivated Codes

In the enclosed listing, the changes made to the Allergens are marked as **bright blue**.

Please note, **Reference Ranges** have also changed for some of our Allergen tests. For those select Allergen tests, the details of the Reference Ranges and Class changes may be extensive. As such, it is best to review those changes, associated with specific Allergens, from the patient's test result report.

Also note, pertaining to the Allergen test updates, there are numerous **LOINC code changes** for certain Test Result fields. A few are listed below, if the LOINC code was associated with an Allergen test that also had a change to a Revised Result Field, Test Name or CPT code. However, should you need a complete list of the LOINC code changes, please contact our Customer Service Department for that documentation to be provided through our database team.

Our online test directory was updated to reflect changes made to Allergen testing on May 9, 2022.

This Client Communication has been posted to our website for reference.

Please review the information and make changes as applicable to your practice/facility. If you have any questions, please contact our Customer Service Department at 419-291-4414/833-960-0241 or your account executive. Thank you.
